PROFESSIONAL SUMMARY

Full Stack Developer with 1.5+ years building production-grade web applications end to end across the MERN and Next.js stack. Experienced in architecting scalable dashboards, REST APIs, real-time systems, and AI-powered workflows for fast-moving startups and international clients. Strong across React, Next.js, Node.js, Express, and MongoDB, with hands-on cloud-native delivery on AWS and Docker plus LLM and Vision-AI integration. Known for shipping performance-optimized systems (35% faster loads, 90+ Lighthouse scores), reducing manual effort through automation, and owning features from database to UI.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, Redux, Tailwind CSS, Vite, HTML5, CSS3, Responsive & Mobile-First Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Real-time (Socket.IO / Web Push), MongoDB, MySQL, Aggregation Pipelines

AI & Automation: OpenAI, Gemini, Vision AI, LLM Pipelines, Prompt Engineering, Workflow Automation, Data Extraction

Cloud & DevOps: AWS, GCP, Docker, Firebase, Git & GitHub, CI/CD, Postman

Mobile: React Native (Expo), Flutter (Intermediate)

PROFESSIONAL EXPERIENCE

Fika AI Research

Jul 2025 - Present

Full Stack Developer (MERN & GenAI)

- Delivered multiple client-facing automation systems and dashboards end to end, including CallQC.AI, ConvergeIQ, ConsignFlow, and a leads/message analytics engine, building both the React/Next.js frontends and the Node.js APIs and data pipelines behind them.
- Engineered backend services and REST APIs with Node.js and MongoDB (aggregation pipelines and real-time updates), powering automated data ingestion, live insights, and fully automated workflow pipelines.
- Integrated AI/LLM and Vision-AI services (OpenAI, Gemini) across the stack to automate data extraction and analysis, reducing manual workload across client projects.
- Deployed cloud-native applications on AWS with Docker and optimized performance across frontend and backend for faster, more reliable releases.

CleverPe

Dec 2024 - Jun 2025

Associate Software Developer (Intern)

- Engineered end-to-end merchant, partner, and admin platforms with React.js, TypeScript, and Node.js, including a loan gateway, multi-lender integrations (Cashe, Zype), dynamic analytics, and role-based access control.
- Built secure backend workflows with Node.js, MongoDB aggregation pipelines, and JWT authentication, and authored complete API integration guides that strengthened cross-team delivery.
- Improved application performance by 35% (90+ Lighthouse scores) and cut merchant onboarding time by 40% through reusable architecture, code-splitting, and optimized rendering.

KEY PROJECTS

CBVI Unified Case Management Platform

Freelance · U.S. Client · 2025

React, Node.js, REST API, Socket.IO, AWS S3, MongoDB · Live: cbvi-web.vercel.app

- Built the complete React frontend and wired up the full REST API for a production case-management platform serving a U.S. violence-intervention nonprofit, delivering role-based dashboards, multi-stage intake workflows with consent rules, longitudinal outcome tracking, and anonymized grant reporting.
- Engineered complex backend modules, including a real-time notification system (Socket.IO and Web Push with deep-linking) and a secure file-attachment service backed by AWS S3.
- Drove backend performance optimizations and built compliance-critical features (audit-trail logging, fiscal month-locks, and automated initials-only reporting), replacing fragmented spreadsheet and legacy tools like Apricot.

StudyRevise | Next.js, Tailwind CSS, Multi-LLM

Nov 2025

- Engineered a multi-document AI study platform with PDF uploads, topic analysis, citation-based answering, and cross-document Q&A across multiple LLM providers, plus integrated quizzes and progress tracking.
- Built a responsive interface with an embedded PDF viewer, chat panel, quiz module, and dashboard using Next.js and Tailwind CSS, delivering a seamless experience across web and mobile.

Kriya | React, Node.js · Live: kriya.xoft.in

Sep 2024

- Delivered a production-grade standup and task-management system with multi-status workflows, recurrence-based scheduling, mobile-responsive UI, role-based access, Jira integration, and Razorpay-powered subscriptions.

Ikhlaas App | React Native (Expo)

May 2025

- Built a cross-platform mobile app (daily task tracking, prayer times, gratitude journaling, Hijri calendar, Quran/Hadith access) with a dynamic home-screen widget, AsyncStorage local persistence, and in-app reminders.

EStyleWala | Vendor Dashboard · Live: vendor.estylewala.com

Freelance · 2024

- Developed a vendor-facing dashboard for orders, listings, and shipping; integrated Shiprocket's API for real-time tracking, shipment creation, and automated status updates.

EDUCATION

B.Tech, Computer Science Engineering

Dec 2021 - Jun 2025

Deogiri Institute of Engineering and Management Studies, Aurangabad
